Arkansas Priorities

- 1) **Obesity**
- 2) **Access to care**
- 3) **Oral health**
- 4) **Sexual health of adolescents**
- 5) **Developmental, behavioral, & mental health of children**
- 6) **Child safety due to intentional injury**
- 7) **Transition to adulthood for CSHCN**
- 8) **Persistently high infant mortality rate**
- 9) **Well woman care**

National Performance Measures

- NPM-1: Percent of women with a past year preventative medical visit.
- NPM-3: Percent of very low birth weight infants born in a hospital with a Level III+ NICU.
- NPM-4 A: Percent of infants who are ever breastfed.
- NPM-4 B: Percent of infants breastfed exclusively through 6 months.
- NPM-5: Percent of infants placed to sleep on their backs.

National Performance Measures

- NPM-7:** Rate of hospitalization for non-fatal injury per 100,000 children ages 0 through 9 and adolescents 10-19.
- NPM-8:** Percent of children ages 6 through 11 and adolescents 12 through 17 who are physically active at least 60 minutes per day.
- NPM-12:** Percent of adolescents with and without special health care needs who received services necessary to make transitions to adult health care.
- NPM-15:** Percent of children ages 0 through 17 who are adequately insured.

State-specific Measures

Women's/Maternal Health:

SPM 2: Percentage of women aged 18-44 years who report being current smokers.

Child Health:

SPM 3: Proportion of children aged 0-14 years with Injury Severity Score of greater than 15 who receive treatment in a Level 1 pediatric trauma center.

SPM 5: Percentage of school-aged children with BMI greater than the 85th percentile.

State-specific Measures

CSHCN:

- SPM 6: Percentage of respondents indicating Title V CSHCN program personnel have communicated information on one or more program(s) or service(s) that were helpful in meeting a family or individual need within the previous year.
- SPM 7: Percentage of CSHCN care coordination staff expressing unmet needs related to workforce development and/or training.

Life Course:

- SPM 4: Percentage of people on community water systems whose water is appropriately fluoridated.

Work Plan

- Well Woman Care:
 - Preventive care visits
 - Preconception counseling
 - Prenatal care
- Perinatal/Infant Health:
 - Perinatal Regionalization Network
 - Breastfeeding policies
 - Back to sleep
 - Safe sleep policies

Work Plan

- Child Health:
 - Fewer hospitalizations due to maltreatment
 - Develop a state performance measure for sexual health of adolescents
- Adolescent Health:
 - Perinatal Regionalization Network
 - Breastfeeding policies
 - Back to sleep
 - Safe sleep policies

Work Plan

- CYSHCN:
 - Improved practices and policies related to transitioning to adulthood
 - Training protocols for CYSHCN families
 - Training protocols for school nurses Pre-K +
- Life course:
 - Reduce number of uninsured children
 - Develop a state performance measure for oral health
