Colleen Ayres-Griffin: My understanding is that to count to the expectation of serving 100 men they must be associated with a Healthy Start mom or child (under 18 months). For those 'marketing' directly to fathers how does that work?

Corrina's iPhone: great

Greg David: Colleen Ayres-Griffin, have your coordinator contact me 337-654-7971

Rodney Moore: We do court support case management, employment search, support group, and are planning breast feeding classes for dads

Tracey: Good question. We have had success with men in the community at large but not necessarily HS men

jskuehl: Our marketing is geared toward mom.

Colleen Ayres-Griffin: Thanks Greg, will do

AUNDRA BROWN-HICKS: Yes that is a good question can we work with men who are not connected to the women

Colleen Ayres-Griffin: Right Greg, that is what we do to, through our case managers serving moms

Akya: connect with WIC is a great source! never thought of that

tthao: Our WIC

ronwhite: my hand is up

jskuehl: We train our nurses and case managers to ask for and look for dads information in the first encounter. Build a good relationship with your HS staff.

Juliet Rutter (they/them) HCCSO: You could also get connection to moms through dads.

Juliet Rutter (they/them) HCCSO: So marketing to everyone makes sense.

tthao: Our WIC's office offered father's group, but only for their clients

Rodney Moore: We have a connection with the Family Court magistrates

Melanie Williams: Mom's in our community are often reluctant to share information on dad. Any insight on how to work with mom as the gatekeeper?

wbcrusoe: Networking , Community, Mothers, Incentives opening to more men then just Healthy Start Dads

Greg Rogers: We work with Dad who are connect to the moms in the programs , but we also work with men who are in the community to be a part of our community program. He Just does not have a Case Manager. Greg Rogers OKC

Maisha's iPhone: So the dads we service, do we have to only work with men in Healthy Start to count them?

Alma Idehen: absolutely, we are also taking that approach. build a network and grow the network and engagement with HS dada. we have monthly workshops for men—open to the community and have be to refer to the program. We have moved the workshops to virtual—Zoom to continue the conversation.
