A Quick Refresher Why Are We Here & Where Are We Going?

Are your bags packed?

The CAN Learning Academy is hosted by the Healthy Start TA & Support Center at NICHQ.

CAN Learning Academy Session Themes

- 1. Making the Journey: Assessing Readiness
- 2. Making New Friends & Identifying Champions: Community Engagement /Partnership
- 3. DATA: Understanding it and Using it to Addressing Health Inequity in Order to Advance Equity!
- 4. On the Journey Now: Strategic Planning Part 1
- 5. Seeing the Light at the End of the Tunnel: Strategic Planning Part 2 and Moving to Implementation
- 6. Summary/Review and Project Presentations

What, No Ice Breaker?

Sorry, we have to get down to business.....

Let's Talk About the Homework

- 1. What part of the readings were most relevant to your CAN's current or future work?
- 2. How will you use what you have read to elevate your CAN's focus?
- 3. What information do you need to move to the next step in the process?
- 4. How does racism connect to health equity?
- 5. How ready is your CAN to move to the next step? What are your key challenges? What are your key advantages?

Small Group Activity

CAN Success & Challenges Using a Health Equity Lens

Instructions

We are asking you to walk the walk, as you will need to do when you get back to work later today or tomorrow.....

- 1) Please select a Facilitator and a Recorder (the recorder will report out when we reconvene)
- 2) Introduce yourselves, your position, and the HS project and state you represent
- 3) Each project will have 10 minutes to present their responses to these questions:
 - a) What are 3 to 5 strengths that your project can use to facilitate systems change through your CAN?
 - b) What are 3 to 5 challenges within your project/organization/CAN that may hinder systems change within your community/state?
 - c) Select one of these challenge and strategize 2 solutions to address the challenge (this is what will be reported out).

1

Common Agenda

- Vision: Improve women's health and birth outcomes and family stability
- Key Levers for Change: (1) service system coordination; (2) an efficient continuum of care; (3) accountability; (4) shared data and solutions-driven decisions

3

Mutually Reinforcing Activities

- Develop strategies and action steps for systems coordination, an effective continuum of options, accountability and shared data and solutions-driven decisions
- Development of strategies and measures based on input from cross-system stakeholders, consumers, and residents that facilitate systems navigation and prevent structural barriers

2

Shared Measurement

- The strategic planning process laid out key system-wide outcomes and impact to be tracked across agencies and organizations and specific performance measures for each strategy
- Aggregate, system-wide data and system outcomes will be made public on a regular basis

Camara Jones

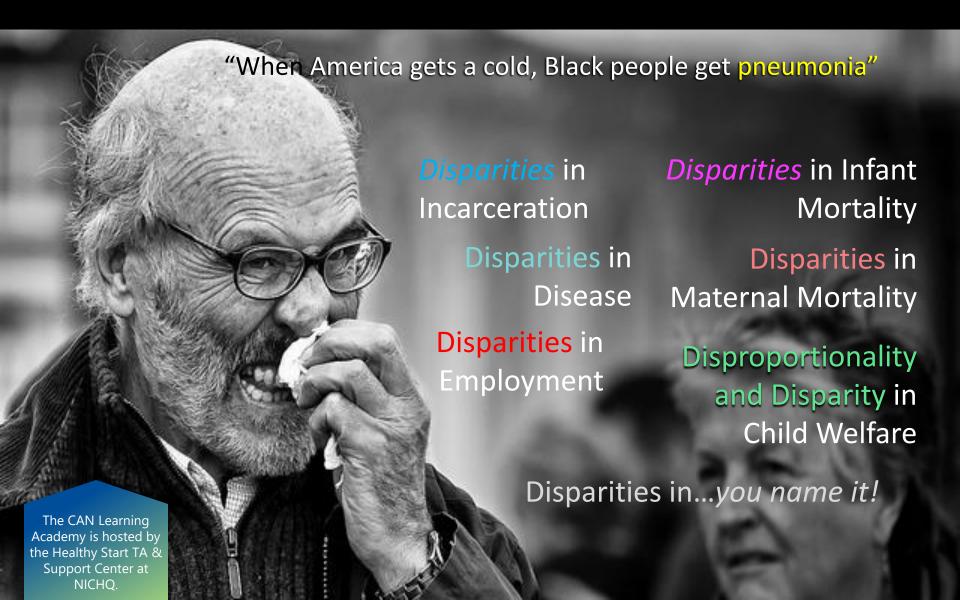

If significant progress is going to be made to help poverty-stricken children, their families and their communities to make any amount of sustainable change, then we must face the reality that structural and institutional racism has undermined – and will continue to undermine if not dealt with the effectiveness of our grantmaking. If racial equity is not achieved in our social and economic systems, we can never hope to give each child in our country the opportunity to reach his or her full potential.

Taking the Equity Lead in Your Organization

Disparities persist •

Disparity is the quantity that separates a group from a reference point on a particular measure of health that is expressed in terms of a rate, proportion, mean, or some other quantitative measure. (HP2010)

Equity is the absence of avoidable, unfair, or remediable differences among groups of people, whether those groups are defined socially, economically, demographically or geographically or by other means of stratification.

Inequity

A difference in the distribution or allocation of a resource between groups (usually expressed as group- specific rates)

Health inequalities are the systematic, avoidable and unfair differences in health outcomes that can be observed between populations, between social groups within the same population or as a gradient across a population ranked by social position.

We are almost done but before we go, I will leave you with this thought...

A Partnership Made in Heaven or Hell?

This parable of the "Long Spoons: explains very well what really makes for a successful relationship!

One day a man said to God, "God, I would like to know what Heaven and Hell are like."

God showed the man two doors. Inside the first one, in the middle of the room, was a large round table with a large pot of stew. It smelled delicious and made the man's mouth water, but the people sitting around the table were thin and sickly. They appeared to be famished. They were holding spoons with very long handles and each found it possible to reach into the pot of stew and take a spoonful, but because the handle was longer than their arms, they could not get the spoons back into their mouths.

The man shuddered at the sight of their misery and suffering. God said, "You have seen Hell."

Behind the second door, the room appeared exactly the same. There was the large round table with the large pot of wonderful stew that made the man's mouth water. The people had the same long-handled spoons, but they were well nourished and plump, laughing and talking.

The man said, "I don't understand."

God smiled. It is simple, he said, Love only requires one skill. These people learned early on to share and feed one another. While the greedy only think of themselves...
